Introducing
MAD's new Panama
integrated pan & tilt

MAD's ruggedly handsome new Panama is a fully integrated pan & tilt with a distinct and vastly superior advantage... Under its weather-proof housing, alongside state-of-the-art electronics, sits a Pentax 15-1 zoom lens fitted to a JVC 1480B camera for true optical quality. A knockout combination and one in the eye for less well-endowed integrated P&Ts with their block cameras.

Brimming with other fine features, as with all MAD CCTV kit, the Panama is immaculately turned out having been designed, manufactured and assembled under one roof.

If you're after a sharper looking, harder hitting integrated pan & tilt, talk to a MADman today. Panama: the ultimate integrated P&T.

Don't get even. Get MAD
